adamhickey

Senior Product Designer

I make complicated products easier to use and new ideas easier to test. Twenty years across visual design, interactive experiences, and enterprise software, now brought together to find the right problem.

Independent

- **Product design, visual systems, prototyping**

  2026 – Present

  Two products in use, designed and built end to end: Door County Found, an editorial travel guide, and Lucy Learns, an illustrated dog-training app. Also The Shortlist and Agent Review, two working prototypes built with coding agents.

RBA Inc

- **Lead UX Product Designer**

  2013 – 2026

  Led UX and visual design for complex digital products, enterprise applications and design systems across logistics, manufacturing, healthcare, finance and the public sector. Built and governed design systems on SAP, Microsoft, Umbraco and Sitecore, led the accessibility practice, and designed and built Connect, the firm's own design-system site.

Selected work

40+ SAP applications made to feel like one product: one design system and accessibility standard; a third less design-to-development time, production UI defects roughly halved.

An identity and community platform for a global corporation's innovation network: mark, illustration, badges, templates and a portal.

A USDA grant-management portal in place of spreadsheets, taking data-analysis requests from 45–55 hours to just over 10.

Pixel Farm

- **Interactive Designer / Developer**

  2008 – 2013

  Designed and built brand-led sites, campaigns and apps for Lund Boats, Fulton Beer, Hazelden and others, in HTML, CSS and jQuery.
